

Summer Math Workshops 2015

<u>Dates</u>	<u>Times</u>	<u>Workshop Title</u>	<u>Cost</u>
July 13 th	8-11 am	Algebra I Preparation	\$60
July 13 th	12-2 pm	Algebra I Refresh	\$40
July 14 th	8-11 am	ACT Math (Beginner)	\$60
July 14 th	12-2 pm	ACT Math Refresh	\$40
July 15 th	8-11 am	Algebra II Refresh	\$60

Description of above courses:

Algebra I Preparation – This course is designed to teach some of the material that will be taught in Algebra I as well as review some of the important concepts from Pre-Algebra that are critical for understanding in higher level math classes. Students will sit through a lecture, note-taking, example type of environment. They will be given problems to demonstrate their understanding of the material that is presented during the workshop.

Algebra I Refresh – This course is designed to reinforce some of the required objectives from Algebra I that are necessary for Geometry and Algebra II. Students will sit through a lecture, note-taking, example type of environment. They will be given problems to demonstrate their understanding of the material that is presented during the workshop.

ACT Math for the Beginner – This workshop will be a slower pace of the material that is normally presented in the ACT Math workshop given here at St. Patrick. Students will be given rules, tips and strategies for performing well on the ACT. Also, understand that beginners might not have learned all of the material that will be on the ACT, therefore, concepts will be taught that they haven't see yet.

ACT Math Refresh – This is the math workshop that is offered here at St. Patrick 1-2 times during the school year. It is a refresher on rules, concepts and language that students might have forgotten over the years. It is meant for students in Algebra II or higher. There will be approximately 70 problems completed during the workshop and a practice test given to students to take at home with a key and solutions.

Algebra II Refresh – This course is meant for students exiting Algebra II that feel a desire to gain confidence on some of the material that is used in higher level math classes, i.e. Trigonometry, Pre-Calculus and Calculus. Students will be lead by instruction through rules, processes and thinking that are necessary to have mastered for these higher level classes. Practice work will be given as well.

All students must bring pencils, paper, graphing calculators and energy/enthusiasm. ☺ There will be a short break (3 minutes) midway for the 2 hour sessions and 2 short breaks (2 minutes) during the 3 hour sessions. The workshop will begin promptly and end promptly as well. Please be sure to be on time.

If you are interested and would like to register please contact Mrs. Susie Tavel at stavel@stpatrickhighschool.net or (228) 239-6414. Print this page, designate which workshop(s) you're interested in and send a check payable to St. Patrick Catholic High School in the amount of the total for workshop(s). Send the filled-out form below with your check to St. Patrick HS. Have the envelope made **Attention to Susie Tavel**.

The registration will be on a first-come first-serve basis, therefore, if you're interested, please register as soon as possible. There must be a minimum of 10 students per workshop for it to be held and no more than 20 students per workshop.

My child, _____, will be attending the below marked workshops. He/she will be in the _____ grade next year and has just finished _____ for their math class this past year. (Please designate which math class they finished in the school year 2012-2013.)

Check all that apply to your registration preferences:

Algebra I Prep	_____	Fee - \$60	Date/Time - July 13 th 8-11am
Algebra I Refresh	_____	Fee - \$40	Date/Time – July 13 th 12-2pm
ACT Math Prep	_____	Fee - \$60	Date/Time – July 14 th 8-11am
ACT Math Refresh	_____	Fee - \$40	Date/Time – July 14 th 12-2pm
Algebra II Refresh	_____	Fee - \$60	Date/Time – July 15 th 8-11am
